# THE AMERICA BUILDING

A resurrected beauty, The America Building reveals a life style for the creative alternative. This is where life is embraced - with no limits and no rules, only creative outcome. There is distinction in the playful color of character and the contemporary vibe that manifests into the spirit of Laissez-Faire. Its reclaim on life fosters an atmosphere of acceptance, creating a work-live-play place that seeks those who've come to feel the music among the ruins and embrace the fact that we can change the world.

# THE CARTER BUILDING

The Honorable John Carter was a distinguished gentleman of great merit who, through duty and courage, built a legacy quite worthy of praise and acclaim. Deserving of trust, honor and responsibility, Carter was a name that defined stalwartly character and a rich love for Hattiesburg.

In honor of his iron clad loyalty to the Pine Belt community, the building on the corner Front & Main, built by Carter and bearing his name, will be resurrected in direct reflection to its original handsome strength and beauty. With a life of over 100 years, The Carter Building's handsome stature and strapping details portray confidence and purpose, an the corridor and pinnacle of Downtown Hattiesburg. So, for the savvy and debonair, come join us at The Carter Building where the fragrance of worn wood and polished leather will perfectly compliment your cigar and espresso.
